- Excellent communication skills, both verbal and written.
- Hard-working and dedicated to driving projects to completion.
- Effective working on a team and independently

PROJECTS

DevConnect — *React & Node*

Github: <https://github.com/jdelongs/DevConnect>

Website: <https://whispering-ravine-66238.herokuapp.com/>

A full-stack LinkedIn clone that is built with React and Redux on the frontend, Node, Express and MongoDB on the back-end. This app also uses mongoose for interacting with MongoDB.

Weather App — *React*

Github: <https://github.com/jdelongs/redux-weather-app>

A simple React and Redux app Allows the user to search for the weather of a city within Canada and show the temperature, humidity and pressure on a graph.

EDUCATION

Computer Programmer — *Georgian College, Barrie*

September 2016 – May 2019

Learned object-oriented programming as well as web technologies and languages such as PHP, HTML, CSS, ASP.NET, C#, JavaScript, Java and MySQL. Also learned TDD, agile development and SDLC.

ACHIEVEMENTS AND CONTRIBUTIONS

GreenHack 2017 — *Hackathon hosted by Henry Bernick Entrepreneurship Centre*

February 2017

Conceptualized and prototyped an automated battery packaging machine to compete in the challenge provided by GEEP (Global Electric Electronic Processing).
