## WORK EXPERIENCE

**Software Developer Intern** – *Caranci Consulting, Barrie*

January 2019 – May 2019

- Developed custom solutions in Microsoft Dynamics NAV to meet client's needs.
- Collaborated with a team of developers to create automation of client's inventory system leveraging APIs.
- Created a Python script to automate the copying of files and folders from one remote server to another.

**Software Developer Intern** – *5Crowd, Toronto*

January 2018 – May 2018

- Assisted with bug fixes on a Project Management web app using AngularJS, SCSS, and Pug.js.
- Created 5Crowd's new website. Coordinated with a Project Manager and Graphic Designer to set out development timelines and meet deadline requirements.
- Played a key role in QA, identifying and documenting bugs.
- Developed intricate CSS SVG animations.

## SKILLS

- Programming skills: JavaScript, React, Angular, Node, HTML, CSS, SCSS, Java, JUnit, MySQL, MongoDB, Bootstrap, git, C/AL, Microsoft Dynamics NAV Development, WordPress.
- Software skills: IntelliJ, VS Code, Visual Studio 2017, IIS, MS Project, Slack, FileZilla, MS SQL Management Studio, Trello.
- Excellent communication skills, both verbal and written.
- Proven through experience to be effective working both on a team and independently.

## PROJECTS

**DevConnect** – *React & Node*

GitHub: <https://github.com/jdelongs/DevConnect>

Website: <https://whispering-ravine-66238.herokuapp.com/>

A full-stack LinkedIn clone that is built with React and Redux on the frontend, Node, Express, and MongoDB on the backend. This app also uses Mongoose for interacting with MongoDB.

**Weather App** – *React*

GitHub: <https://github.com/jdelongs/redux-weather-app>

A React and Redux app that allows the user to search for the weather of a Canadian city and displays the temperature, humidity, and pressure on a graph.

## EDUCATION

**Computer Programmer** – *Georgian College, Barrie*

September 2016 – May 2019

Learned object-oriented programming as well as web technologies and languages such as PHP, HTML, CSS, ASP.NET, C#, JavaScript, Java and MySQL. Also learned TDD, agile development, and SDLC.

## ACHIEVEMENTS AND CONTRIBUTIONS

**GreenHack 2017** – *Hackathon hosted by Henry Bernick Entrepreneurship Centre*

February 2017

Conceptualized and prototyped an automated battery packaging machine to compete in the challenge provided by GEEP (Global Electric Electronic Processing).
